Python

Git

Experience

UI/UX Research and Design Honeybee Hub

Jan 2021 - Apr 2021

- Designed, researched, and shipped 4 new features to the Developer team within 4 months
- Communicated effectively with Marketing and Developer team to design, present my designs, and review and advocate for our users on new designs
- Proposed ideas and areas of improvement for our product based on survey responses and Intercom questions from our users

Tech Team Co-Lead SprintUofT

Oct 2020 - Aug 2021

- Developed and designed Sprint UofT main website
- Lead meetings with developers to implement main website

QA Analyst Digital 14

Sep 2019 - Aug 2020

- Automated test cases for a client-server cybersecurity communication app using Java, Appium, and Selenium
- Reported 70+ server and client side bugs using root cause analysis
- Created over 200 user test cases by empathizing with our users

Projects

Judgement!

June 2020

- Developed and designed an entire front end of a web-app using CSS, HTML, and React.js

Smart Read

Sep 2018

- Created a Hi-fi app prototype using the iterative design process
- Placed 2nd at a user experience, research, and design competition judged by design experts from IBM
- Conducted one-on-one interviews, created online surveys, and worked closely with testers for user research
